Larsen Pneumatic Entry and Exit Gates

Larsen Dairies have been selling entry and exit gates for your Herringbone dairies for many years. There are many hundreds of the Pendulum type swing up gates on the market. Using mechanics initially and then upgrading to Vacuum the gates have served the Australian farmer well for many years.

With the availability and use of Pneumatics now being common place in many industries it was only a matter of time before they saw their way into the day to day working of new and existing dairies. If you have existing Pendulum entry and or exit gates these can now be upgraded to Compressed air actuation from: \$1,250.00 + GST for entry gates and \$1,175.00 for exit gates.
